AI-POWERED · COMPLIANCE & TRAINING

Every policy signed. Every training done. Always audit-ready.

Policies, acknowledgments, state-required training and PD hours live in one place, so the proof is ready the moment anyone asks.

WHAT'S IN THE BUNDLE

Two ledgers, one record

Policy

WRITE · PUBLISH · SIGN

01	Policy and procedure management with versioning
02	Policy templates with adoption tracking
03	One-click acknowledgments from staff and students
04	Change logs show staff exactly what changed
05	AI gap analysis and update recommendations

Training

MAP · ASSIGN · COMPLETE

01	State-required training catalog, with citations
02	Mapped automatically to each state requirement
03	Launch-ready safety trainings with fast-track mode
04	Build your own with slides, quizzes and uploads
05	Assign to schools, teams, staff or student groups

YOUR AUDIT FILE — Always current, never assembled the night before.

Real-time compliance dashboard

Policy history
Every version and change log, with adoption tracked

Acknowledgments
Who acknowledged which policy, and when

Training completions
By district, school, team and person

Certificates & PD hours
Issued on completion, tracked per staff member

Compliance reports
Annual reporting and oversight dashboards

From state requirement to signed certificate.

Every required training is traced from the law that requires it to the person who completed it.

1

State requirement

A catalog of state-required trainings, each with its citation, audience and cadence.

2

Mapped training

Library or your own trainings, mapped automatically to each requirement.

3

Assigned & completed

By school, team, person or student group, with reminders and a fast-track option.

Certificate & PD hours

Completion issues a certificate carrying PD hours, tracked per staff member.

AI AT WORK

AI suggests. Your team reviews and decides.

Policy gap analysis

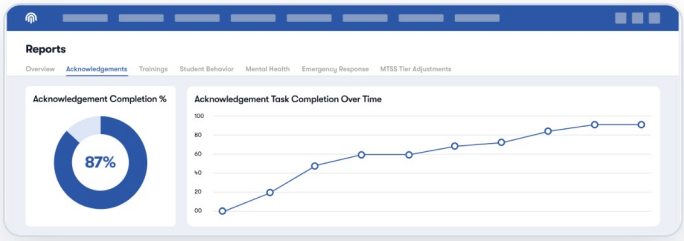

AI compares your policies with current requirements and recommends updated text for your review.

Training content generation

Draft a new training with AI, then shape it before you assign it.

Change monitoring

Changes to state law and training requirements are monitored for you.

The acknowledgments report: completion rate and progress over time, with the same view for trainings.

What leadership sees

OVERSIGHT

- A real-time compliance dashboard across schools
- Acknowledgment and training completion, by person
- PD hours per staff member, with school and district reports
- Annual compliance reporting
- Administrative oversight dashboards

> "You guys have crushed it again… You've been amazing. I love the product so far… I'm not dealing with as many frustrations as I did last year."

Adam Copeland · Assistant Superintendent, Morgan Local Schools (OH)

Why move training and policy here? In most districts they sit in a separate system. Here they share one platform with student safety, special education and MTSS.

See Compliance & Training in action.

We'll walk your HR, compliance and school leaders through it live. Available through SHI.
