AI-POWERED · MTSS & STUDENT SUPPORTS

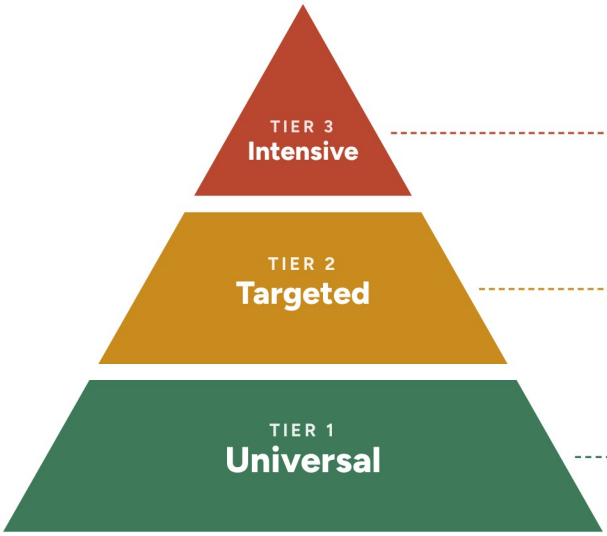

The right support, before the next review meeting.

Impact Suite reads screening, attendance, grade and behavior data, recommends the right tier, and tracks every intervention, so your team acts on evidence the week it appears.

WHAT'S IN THE BUNDLE

Every tier, on one student record.

Plans and the path to evaluation

Individual Learning Plans and English learner plans with goals and progress, scheduled plan reviews, and a referral bridge into special-education evaluation.

Interventions that prove themselves

A strategy library scoped by tier, type and duration, a progress-monitoring cadence for each intervention, fidelity tracking and documented outcomes.

Every student, screened and supported

SEL curriculum, PBIS with a behavior matrix, wellness check-ins with a parental permission workflow, and universal screening and benchmark assessment.

ACROSS EVERY TIER

- Tier thresholds by absence rate, GPA and concern count
- Tier-change recommendations your team reviews and approves
- Optional automation, if your district wants it
- Tier movement history with documented decisions

From first signal to the right support.

Every step lands on the same student record, so the evidence builds while the work happens.

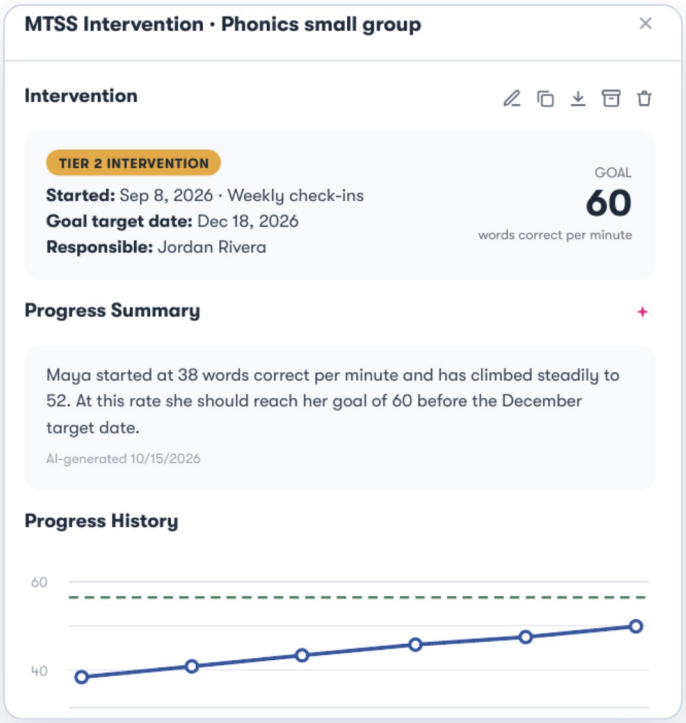

1. **A signal crosses your threshold**
   Attendance, grade and behavior feeds are checked against the tier thresholds your district sets.

2. **A tier change is recommended**
   Your team reviews the data and approves it. Districts can turn on automatic placement if they choose.

3. **An intervention starts**
   Pick a strategy from the library, set the cadence and name who is responsible.

4. **Progress is logged and summarized**
   Data points land at every check-in, and an AI summary tells the team whether the student is on pace.

5. **The next step is documented**
   Step down, adjust, or carry the record into a special-education evaluation.

An intervention record: the goal, an AI-written progress summary and every data point.

> **I really, really appreciate you guys. I truly do. You've been so good to work with us.**

Also in MTSS & Student Supports

Every plan your student services team runs, on the same record.

SECTION 504
504 plans, start to finish
504 plan management with eligibility tracking and semester acknowledgements, and accommodation templates with a teacher feedback loop.

ENGLISH LEARNERS
EL plans with WIDA
English learner plans with WIDA language proficiency and reclassification tracking, and goals with progress on every plan.

BEHAVIOR
PBIS, schoolwide
Schoolwide expectations, positive recognitions and a behavior matrix with progress alerts.

See MTSS & Student Supports in action.

We'll walk your intervention teams through it live. Available through SHI.
